

Virtual Bronze Exploration (VBE) Requirements 铜奖线上探索-要求

The Virtual Bronze Exploration (VBE) is a new temporary option (COVID-19 period, initially to Dec 2020) for completing the Adventurous Journey (AJ). The document includes an overview of who can use the VBE, the requirements that must be fulfilled by participants completing a VBE, and how the VBE can be delivered as part of a 'traditional' AJ.

Who can use the VBE?

谁可以开展铜奖线上探索

The VBE is designed for Bronze level participants who are part of an Award Centre and who are not able to participate in a traditional AJ. Participants of an Award Centre at the Silver or Gold level may use the VBE to complete the Preparation & Training component of the AJ.

How China NAO can assess VBE for licensed Award Centres

爱奖中国办公室如何审核铜奖户外探索活动

To be able to manage the VBE, all Award Centres must have a digital platform for Education. China NAO is using Dingtalk but considering the difference in selecting platforms and difficulties in selecting one platform to work for all licensed organizations, ACs/OACs could provide an existing education platform to invite one NAO staff to join this selected platform to continue management and support, till the completion of VBE.

Regarding platform query, please do not hesitate to contact China NAO via operations@intawardchina.cn.

All reports from VBE shall be uploaded to ORB individually by participants (details included in the VBE resource pack)

Delivering a hybrid innovative VBE, including a traditional AJ

开展一个混合方式创新型的户外探索活动(包含传统户外探索)

Where public health restrictions are sufficiently 'relaxed' and outdoor education in small groups is allowed, the VBE can be used as a hybrid tool with an outdoor / traditional AJ and used to replace the preparation, training and practice stages associated with the traditional AJ.

In this context, it is recommended that Stages 1 – 3 are completed using the digital Classroom and then Stages 4 and 5 delivered as per a 'normal' AJ.

Depending on the restrictions in different places in China, Award Centres/Open Award Centres may not be able to deliver an AJ that is fully compliant with all the 15 Requirements in the International Handbook for Award. For instance, journeying with a group outside a household and taking part in activity with a family member might be required.

In reality, the blend of how much will be virtual and how much will be 'traditional' will come down to what is appropriate in the context of the Award Centre/Open Award Centre and this should be discussed with the China NAO.

Purpose, ethos and educational outcomes of the AJ section 户外探索的目的,精神及教育成果

The following is a direct extract from the Handbook:

Purpose of the Adventurous Journey

To encourage a spirit of adventure and discovery as well as develop leadership, team skills and decision making, whilst undertaking a self-sufficient journey in a small team. This is the only section of the Award that must be undertaken in a team – developing group work skills and team building are a key component to completing this section.

Ethos

The Adventurous Journey provides participants with a unique, challenging and memorable experience. The journey, with a clear and agreed aim (refer to paragraph 8.6 for an explanation of an 'aim'), must be undertaken in a small group in an unfamiliar environment, requiring determination and perseverance, thus providing a sense of independence, self-sufficiency and discovery. The key elements of the Adventurous Journey are teamwork in planning and undertaking Practice and Qualifying Journeys against the background of real challenges posed by an unfamiliar environment.

Outcomes and benefits 成果与好处
